

Mission

Post 1 is dedicated to honoring our past and serving the growing needs of the 21st century Veteran. We recognize that as a legacy veteran group. We need to adapt in order to be effective advocates in today's society, provide services where needed and guidance when warranted.

The members of Post 1 are working hard to address the critical issues facing the men and women still in uniform, Veterans of all conflicts and their families. We are charting a new course as the first VFW Post and we invite you to join us as we move forward and continue a long tradition of service to our country and fellow Veterans.

Homeless Veteran Reintegration

25% percent of the homeless are Veterans. Post 1 works with groups such as the Bo Matthews Center and the City and County of Denver to get these men and women into housing and assists with employment. The forgotten Heros Campaign works to get medals and awards to Veterans who earned them but never received them. Over 500 men and women have been helped.

Post 1 is the first and oldest VFW Post. Founded in 1899 by members of the First Colorado Volunteers commanded by general Irving Hale returning from the Philippines after the Spanish American War, our Post is the standard-bearer for the now international Veterans of Foreign Wars.

Initially called the Army of the Philippines Post 1 joined with other Spanish American War veterans to form the Veterans of Foreign Wars.

The Post was named for John S. Stewart, an officer killed in the Philippines, and much beloved by his troops

The first meeting of Post 1 took place at the Colorado State Capitol on December 1, 1899. The Post has met every month since then.

VFW POST 1 THE FIRST POST

Founded in 1899

Get Involved

At Post 1 we ask our members to get directly involved with one of the many programs we support, or the annual events we hold each year. We have activities, programs and volunteer options to fit everyone's schedule and lifestyle.

Post 1 is one of the fastest growing VFW posts in the world. We have the largest female Veteran membership in the state of Colorado and a growing number of recent conflict Veterans

Post 1 regularly adopts units deploying to conflict zones, supporting the families left behind as well as the troops left overseas.
